

Tryon Courthouse Rd Sidewalk

NCDOT STIP No. BL-0033
Project Limits Pine Springs Drive to
 Tryon Elementary School
Project Length 2,900 feet

Project Description

Tryon Courthouse Road is a two-lane, major collector with no pedestrian accommodations. This project proposes to construct a sidewalk along Tryon Courthouse Road — along the west side from Pine Springs Drive to Chum Road and along the east side from Chum Road to Tryon Elementary School with a mid-block crosswalk.

The above image shows the existing field across from Creekside Estates.

The top image shows Tryon Elementary School. The sidewalk is proposed to tie-in to the walkway past the bus parking lot.

Project Purpose

The purpose of the Project is to improve the connectivity and safety for Tryon Elementary School students between Pine Springs Dr and Tryon Elementary School. This project is consistent with County multimodal plans.

Preliminary Design

This project proposes to construct a sidewalk along Tryon Courthouse Road. The sidewalk is proposed along the west side from Pine Springs Drive to Chum Road and along the east side from Chum Road to Tryon Elementary School, Two crosswalks are proposed. One across Tryon Courthouse Road at Chum Road and the second across Tryon School Road at the southeastern school entrance.

As shown in **Typical Sections 1 & 2**, the existing travelways and shoulder will be maintained. The proposed 5 foot sidewalk will be centered on a 10 foot berm and separated from traffic.

This project is designed to have minimal impacts, though some new right-of-way is anticipated. The right-of-way limits shown on the Public Meeting Map (January 2026) are preliminary and subject to change. Impacts to utilities will be avoided to the greatest extent possible and any conflicts resolved and restored.

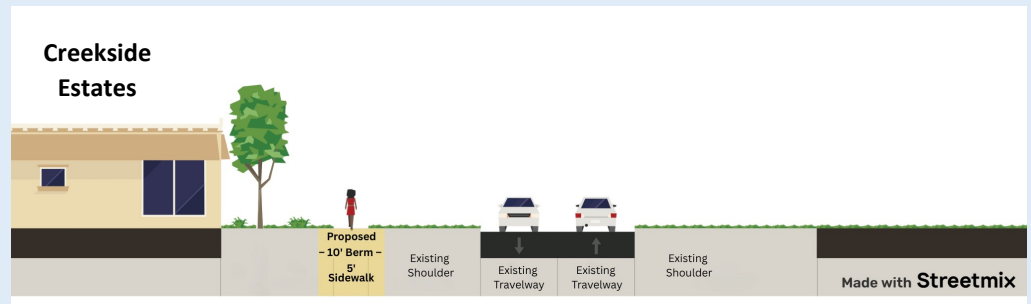

This project is being partially funded using money from the Federal Congestion Mitigation and Air Quality (CMAQ) grant.

Construction on this project is anticipated to begin in 2027/2028.
